

DiTox-3 *Premium*

COMPOSITION :

Natural dipolar Phyllosilicates, Mannan Oligosaccharides (MOS)

Activated carbon, Liver and kidney rejuvenators, Beta-Glucans, Organic acids, Phyllanthus niruri.

1. Binds and eliminate wide range of mycotoxins, chemical toxins and bacterial toxins, ensuring safer and higher-quality feed for poultry.
2. Phyllosilicates adsorb toxins effectively due to their high surface area and layered structure, allowing them to trap and neutralize harmful substances within their interlayer spaces.
3. Organic acids in Ditox-3 premium can neutralize bacterial toxins by lowering pH in the gut, disrupting bacterial cell walls, and binding toxins directly.
4. Improves Liver and Kidney functions.

DOSAGE:

Regular: 1 kg/tonne of feed
High moisture and toxin
suspected feed:
2 kg/tonne of feed

PRESENTATION : 25 KG Bag
