

TRACE MINERALS

Mak Min-OrgTM

Layer Pack

COMPOSITION :

Optimized organic trace minerals:

Zinc, Manganese, Copper, Iodine, Iron, Selenium and Chromium and Vitamin D3 from plant origin to fulfill the nutrient requirement in layer birds.

BENEFITS :

- Contribute to a robust flock with uniformity in terms of body size, contour and production.
- Maintains the strength, quality, and homogeneity of the eggshell, egg size, bone, and footpad.
- Enhances both internal (Albumen and yolk) and external (Shell) quality of eggs.
- Protect the flock from chondrodystrophy and perosis.

DOSAGE AND ADMINISTRATION

500 - 750 g / tonne of feed

or

As advised by the Veterinarian /
Nutritionist

PRESENTATION : 25 KG bag
