

ZenVit-E^{plus}

COMPOSITION:

Each gm contains,

Vitamin E : 100 mg
Selenium : 1 mg
1,3-1,6 Beta-Glucans : q.s

Vitamin E and Selenium work synergistically to protect cellular membranes from oxidative damage by neutralizing free radicals. They enhance the immune response by promoting the activity of immune cells and improving antibody production.

Selenium is a key component of glutathione peroxidase, an enzyme that reduces hydrogen peroxide and organic hydroperoxides, protecting cells from oxidative stress. Selenium aids in the regeneration of oxidized Vitamin E, amplifying its antioxidant effect.

INDICATIONS:

1. Enhances feed efficiency, growth rate, and overall vitality in poultry.
2. Supports hatchability and fertility by protecting reproductive cells from oxidative damage.
3. Reduces the incidence of muscular dystrophy, exudative diathesis, and encephalomalacia.
4. Helps to withstand environmental and physiological stresses such as heat, infection, and vaccination.
5. Boosts disease resistance and recovery by strengthening immune responses.

DOSAGE:

In Drinking water: Chicks / Growers / Layers: 5g / 100 birds, Broiler / Breeders: 5 g / 50 birds

In Feed: Chicks / Growers / Layers: 100-150g /ton of feed, Broiler / Breeder: 150-250 g/ton of feed.
Or as recommended by the Veterinarian /Nutritionist.

Presentation: 200gm

(An ISO 9001:2015 Certified Company)

GMP & HACCP Certified
